What to see and other guide info

- <http://www.lonelyplanet.com/ireland>
 - o parents if you are planning on buying anything of value check out the tax back notes
- Tips normally about 10%
- Check with your cell phone carrier to see if you will have coverage and what the voice/data charges will be
- PC and cell phone power adapters are normally for the voltage conversion. But you will need a plug adapter.
 - o To make sure that this is all you need, read the name plate on your laptop power adapter (the big black box); if it says something like "50 Hz - 60 Hz, 100 V - 240 V", then it means all you need is a plug adapter.
 - o When shopping, make sure it's a UK plug adapter;
- Bring several couple thick zip-lock sandwich bags
 - o for keeping your important documents and stuff together
 - o for change as they use coins much more than we do
- for your liquids/gels that you may want to carry on the plane
 - o **3-1-1 for carry-ons** = 3.4 ounce (100ml) bottle or less (by volume) ; 1 quart-sized, clear, plastic, zip-top bag; 1 bag per passenger placed in screening bin. One-quart bag per person limits the total liquid volume each traveler can bring. 3.4 ounce (100ml) container size is a security measure.
- If you've never used it. Check out www.skype.com for a great way to stay in touch at no cost
- HAVE FUN!
